An approach to investigation of easy bruising, 488
- accident and emergency**, Determining the common medical presenting problems to an accident and emergency department, 390
- acetazolamide**, Use of acetazolamide to decrease cerebrospinal fluid production in chronically ventilated patients with ventriculopleural shunts, 68
- acquired subglottic stenosis**, Acquired subglottic stenosis caused by methicillin resistant *Staphylococcus aureus* that produce epidermal cell differentiation inhibitor, F38
- acute appendicitis**, Acute urinary retention: an unusual presentation of acute appendicitis in a 3 year old boy, 269
- acute asthma**, Crushed prednisolone tablets or oral solution for acute asthma?, 347
Successful implementation of spacer treatment guideline for acute asthma, 142
- acute chest syndrome**, Significance of fever in Jamaican patients with homozygous sickle cell disease, 156
- acute renal failure**, Prognosis of patients with acute renal failure without cardiopathy, 258
- adolescence**, Birth weight <1501 g and respiratory health at age 14, 40
Data presented do not justify pessimistic conclusions: *letter*, 92
Dermatoglyphic patterns, very low birth weight, and blood pressure in adolescence, F18
- adrenal insufficiency**, Refractory hypotension in preterm infants with adrenocortical insufficiency, F122
- adrenaline**, Neonatal catecholamine levels and neurodevelopmental outcome: a cohort study, F49
- adrenaline syringes**, Adrenaline syringes are vastly over prescribed, 410
- adverse drug reactions**, A novel scheme for the reporting of adverse drug reactions, 337
- Africa**, Necropsies in African children: consent dilemmas for parents and guardians, 463
- age related effects**, Cognitive and adaptive outcomes and age at insult effects after non-traumatic coma, 200
- AIDS**, Five year follow up of vertically HIV infected children in a randomised double blind controlled trial of immediate versus deferred zidovudine: the PENTA 1 trial, 230
- alcohol**, Alcohol misuse: *leading article*, 95
- Alder Hey**, Reflecting on Redfern: What can we learn from the Alder Hey story?: *leading article*, 455
- allergy**, Survey of criteria used to diagnose allergic bronchopulmonary aspergillosis in cystic fibrosis: *letter*, 89
- alternative medicine**, Complementary and alternative medicine for children: does it work?, 6
- amethocaine gel**, Topical amethocaine gel for pain relief of heel prick blood sampling: a randomised double blind controlled trial, F56
- amphotericin B lipid complex**, Amphotericin B lipid complex for neonatal invasive candidiasis, F131
- anaemia**, Critical haemoglobin thresholds in premature infants: *leading article*, F146
Should infants be screened for anaemia? A prospective study investigating the relation between haemoglobin at 8, 12, and 18 months and development at 18 months, 480
Work, family socioeconomic status, and growth among working boys in Jordan, 311
- anaesthetic**, Topical amethocaine gel for pain relief of heel prick blood sampling: a randomised double blind controlled trial, F56
- antibiotic resistance**, Antibiotic resistance and antibiotic sensitivity based treatment in *Helicobacter pylori* infection: advantages and outcome, 419
- antibiotic susceptibility assay**, Antibiotic resistance and antibiotic sensitivity based treatment in *Helicobacter pylori* infection: advantages and outcome, 419
- antibiotics**, A trial of recombinant human granulocyte colony stimulating factor for the treatment of very low birthweight infants with presumed sepsis and neutropenia, F172
Randomised controlled trial of three day versus 10 day intravenous antibiotics in acute pyelonephritis: effect on renal scarring, 241
Rationing of antibiotic use in neonatal units: *letter*, F218
- anti-D prophylaxis**, Maternal anti-D prophylaxis during pregnancy does not cause neonatal haemolysis, F60
- antidepressants**, Withdrawal reactions of a premature neonate after maternal use of paroxetine: *letter*, F77
- anxiety**, Efficacy and safety of nitrous oxide in alleviating pain and anxiety during painful procedures, 492
- aorta**, Natural history of cardiovascular manifestations in Marfan syndrome, 129
- apnoea**, Parental compliance with home cardiorespiratory monitoring, 270
- apoptosis**, Increased cerebrospinal fluid concentrations of soluble Fas (CD95/Apo-1) in hydrocephalus, 369
- apparent life threatening event**, Parental compliance with home cardiorespiratory monitoring, 270
- ascorbic acid**, Blood transfusion increases radical promoting non-transferrin bound iron in preterm infants, F188
- aspergillosis**, Survey of criteria used to diagnose allergic bronchopulmonary aspergillosis in cystic fibrosis: *letter*, 89
- asphyxia**, Nucleated red blood cells in the fetus and newborn: *review*, F211
- asthma**, Asthma admissions and weather conditions in Costa Rica, 514
Birth weight <1501 g and respiratory health at age 14, 40
Bone density in asthmatic children treated with inhaled corticosteroids, 183
Bronchodilator responsiveness testing in young children: *letter*, 531
Continued increase in the prevalence of asthma and atopy, 20
Oral steroids and inflammatory markers in asthma: *letter*, 187, 452
Randomised controlled study of clinical efficacy of spacer therapy in asthma with regard to electrostatic charge, 178
Spacers and holding chambers: Not the last word, we hope—a reply: *letter*, 281
- asynchronous breathing**, Asynchronous breathing during sleep, 174
- athetoid cerebral palsy**, Preterm infants with athetoid cerebral palsy: kernicterus?, F136
- atopic disease**, Extent of fussing and colic type crying preceding atopic disease, 349
- atopy**, Continued increase in the prevalence of asthma and atopy, 20
- attention deficit**, An auditable protocol for treating attention deficit/hyperactivity disorder: *current topic*, 404
- audit**, UK Audit of Childhood Growth Hormone Prescription, 1998, 387
- autism**, Screening and surveillance for autism and pervasive developmental disorders: *current topic*, 468
- bacteraemia**, Significance of fever in Jamaican patients with homozygous sickle cell disease, 156
- bacteria**, Rationing of antibiotic use in neonatal units: *letter*, F218
- barriers to immunisation**, Overcoming barriers to hepatitis B immunisation by a dedicated hepatitis B immunisation service, 114
- Beckwith-Wiedemann syndrome**, Hyperinsulinism and Beckwith-Wiedemann syndrome: *current topic*, F67
- bedside glucose measuring devices**, Practical management of hyperinsulinism in infancy: *letter*, F218
- behaviour**, Changing physician behaviour: *leading article*, 459
- behavioural programmes**, Economic evaluation of strategies for managing crying and sleeping problems, 15
- bereaved parents**, Follow up care of bereaved parents after treatment withdrawal from newborns, F125
- bilirubin**, Preterm infants with athetoid cerebral palsy: kernicterus?, F136
- birth customs**, Muslim birth customs: *leading article*, F6
- birth order**, Respiratory distress syndrome and birth order in premature twins, F117
- birth weight**, Birth weight, subsequent growth, and cholesterol metabolism in children 8–12 years old born preterm, 212
Cerebral palsy in the surviving twin associated with infant death of the co-twin, F111
- births**, Coverage of neonatal screening: failure of coverage or failure of information system, 476
- bladder biopsy**, Eosinophilic cystitis, 344
- blood borne infections**, Hajj and risk of blood borne infections: *letter*, 375
- blood pressure**, Dermatoglyphic patterns, very low birth weight, and blood pressure in adolescence, F18
- blood sampling**, An automatic incision device for obtaining blood samples from the heels of preterm infants causes less damage than a conventional manual lancet, F53
- blood transfusion**, Blood transfusion increases radical promoting non-transferrin bound iron in preterm infants, F188
Hepatic iron storage in very low birthweight infants after multiple blood transfusions, F101
- bone marrow transplantation**, Bone marrow transplantation for CD40 ligand deficiency: a single centre experience, 508
Chemotherapy and marrow transplantation for congenital leukaemia, F47
- bone mineral density**, Normal bone mineral density in cystic fibrosis, 363
- bone mineral status**, Bone status in cystic fibrosis, 516
- brain**, Brain specific proteins in posthaemorrhagic ventricular dilatation, F90
Dexamethasone treatment and cerebral palsy: *letter*, F140
Fetal brain disruption sequence in a newborn infant with a history of cordocentesis at 21 weeks gestation, F63

- Randomised controlled trial of prophylactic etamsylate: follow up at 2 years of age, **F183**
- brain injuries**, Protective role of cerebrospinal fluid in brain injuries: *letter*, **187**
- breast feeding**, Breast feeding and the risks of viral transmission: *leading article*, **381**
Breast milk feeding and cognitive ability at 7–8 years, **F23**
Muslim birth customs: *leading article*, **F6**
- breath test**, Uses of stable isotopes in clinical diagnosis and research in the paediatric population, **444**
- bronchoconstriction**, Bronchoconstriction following nebulised colistin in cystic fibrosis, **432**
- bronchodilator**, Bronchodilator responsiveness testing in young children: *letter*, **531**
- bronchoscopy**, Safety and ethics of bronchoscopy and endobronchial biopsy in difficult asthma, **423**
- bruising**, An approach to investigation of easy bruising, **488**
- C reactive protein**, Procalcitonin in children admitted to hospital with community acquired pneumonia, **332**
- calculus**, Evaluation of urinary tract calculi in children, **320**
- cancer**, Fertility preservation for children treated for cancer (1): scientific advances and research dilemmas: *personal practice*, **355**
Fertility preservation for children treated for cancer (2): ethics of consent for gamete storage and experimentation: *personal practice*, **360**
Response to influenza immunisation during treatment for cancer, **496**
- candida**, Amphotericin B lipid complex for neonatal invasive candidiasis, **F131**
Faecal candida and diarrhoea, **328**
- cardiac arrest**, Prehospital emergency care for children: *current topic*, **103**
- cardiac tamponade**, Positioning long lines: contrast versus plain radiography, **F129**
- cardiac transplantation**, Friedrich's ataxia presenting after cardiac transplantation, **167**
- cardiac troponin T**, Cardiac troponin T in cord blood, **F34**
- cardiomyopathy**, A severe genotype with favourable outcome in very long chain acyl-CoA dehydrogenase deficiency, **58**
Friedrich's ataxia presenting after cardiac transplantation, **167**
- cardiorespiratory monitoring**, Parental compliance with home cardiorespiratory monitoring, **270**
- catecholamines**, Neonatal catecholamine levels and neurodevelopmental outcome: a cohort study, **F49**
- cause of death**, Social deprivation and the causes of stillbirth and infant mortality, **307**
- CD40 ligand deficiency**, Bone marrow transplantation for CD40 ligand deficiency: a single centre experience, **508**
- central nervous system**, Background electroencephalographic (EEG) activities of very preterm infants born at less than 27 weeks gestation: a study on the degree of continuity, **F163**
Central nervous system imaging and congenital melanocytic naevi, **152**
- cephalosporins**, Neonatal meningitis in England and Wales: 10 years on, **F85**
- cerebral atrophy**, Fetal brain disruption sequence in a newborn infant with a history of cordocentesis at 21 weeks gestation, **F63**
- cerebral malaria**, Electroencephalographic and clinical features of cerebral malaria, **247**
- cerebral palsy**, A touch of cerebral palsy: *leading article*, **F4**
Cerebral palsy in the surviving twin associated with infant death of the co-twin, **F111**
Dexamethasone treatment and cerebral palsy: *letter*, **F140**
Pulse oximetry, severe retinopathy, and outcome at one year in babies of less than 28 weeks gestation, **F106**
Ultrasound diagnosis and neurodevelopmental outcome of localised and extensive cystic periventricular leucomalacia, **F151**
- cerebrospinal fluid**, Brain specific proteins in posthaemorrhagic ventricular dilatation, **F90**
Protective role of cerebrospinal fluid in brain injuries: *letter*, **187**
Use of acetazolamide to decrease cerebrospinal fluid production in chronically ventilated patients with ventriculopleural shunts, **68**
- change in practice**, Successful implementation of spacer treatment guideline for acute asthma, **142**
- chemotherapy**, Chemotherapy and marrow transplantation for congenital leukaemia, **F47**
- childhood disability**, Randomised controlled trial of prophylactic etamsylate: follow up at 2 years of age, **F183**
- children**, Necropsies in African children: consent dilemmas for parents and guardians, **463**
- chiropractic treatment**, Randomised controlled trial of infantile colic treated with chiropractic spinal manipulation, **138**
- chloride**, Sweat chloride and conductivity 1: *letter*, **450**
Sweat chloride and conductivity 2: *letter*, **450**
- cholesterol metabolism**, Birth weight, subsequent growth, and cholesterol metabolism in children 8–12 years old born preterm, **212**
- chronic granulomatous disease**, Colitis in chronic granulomatous disease, **147**
- chronic illness**, A review of measures of quality of life for children with chronic illness, **205**
- chronic lung disease**, Blood transfusion increases radical promoting non-transferrin bound iron in preterm infants, **F188**
Randomised controlled trial of oral vitamin A supplementation in preterm infants to prevent chronic lung disease, **F9**
Type I collagenases in bronchoalveolar lavage fluid from preterm babies at risk of developing chronic lung disease, **F168**
- circumcision**, Muslim birth customs: *leading article*, **F6**
- cisapride**, Effects of cisapride on QTc interval in term neonates, **F44**
- clinical trials**, Overview of European legislation on informed consent for neonatal research, **F70**
- coagulation factor**, An approach to investigation of easy bruising, **488**
- cognitive ability**, Breast milk feeding and cognitive ability at 7–8 years, **F23**
- cognitive functioning**, Low grade astrocytomas in the West of Scotland 1987–96: treatment, outcome, and cognitive functioning, **61**
- cohort study**, Natural history of cardiovascular manifestations in Marfan syndrome, **129**
- colic type cry**, Extent of fussing and colic type crying preceding atopic disease, **349**
- colistin**, Bronchoconstriction following nebulised colistin in cystic fibrosis, **432**
- colitis**, Colitis in chronic granulomatous disease, **147**
- collagen**, An approach to investigation of easy bruising, **488**
Type I collagenases in bronchoalveolar lavage fluid from preterm babies at risk of developing chronic lung disease, **F168**
- coma**, Cognitive and adaptive outcomes and age at insult effects after non-traumatic coma, **200**
Electroencephalographic and clinical features of cerebral malaria, **247**
Incidence, aetiology, and outcome of non-traumatic coma: a population based study, **193**
- community**, Systematic review of the occurrence of infantile colic in the community, **398**
- community acquired**, Procalcitonin in children admitted to hospital with community acquired pneumonia, **332**
- community child health**, Health of teenagers in residential care: comparison of data held by care staff with data in community child health records, **10**
- complementary medicine**, Complementary and alternative medicine for children: does it work?, **6**
- conductivity**, Sweat chloride and conductivity 1: *letter*, **450**
Sweat chloride and conductivity 2: *letter*, **450**
- congenital**, Chemotherapy and marrow transplantation for congenital leukaemia, **F47**
- congenital heart disease**, Management of the neonate with symptomatic congenital heart disease: *leading article*, **F141**
- congenital hyperinsulinism**, Exercise induced hypoglycaemic hyperinsulinism, **254**
- congenital melanocytic naevus**, Central nervous system imaging and congenital melanocytic naevi, **152**
- conjugate vaccines**, New pneumococcal vaccines for children: *current topic*, **289**
- consent**, Necropsies in African children: consent dilemmas for parents and guardians, **463**
- consent to research**, Overview of European legislation on informed consent for neonatal research, **F70**
- contrast**, Positioning long lines: contrast versus plain radiography, **F129**
- coordinate**, The need for and the role of a coordinator in child health surveillance/promotion: *leading article*, **1**
- cord blood**, Cardiac troponin T in cord blood, **F34**
- cordocentesis**, Fetal brain disruption sequence in a newborn infant with a history of cordocentesis at 21 weeks gestation, **F63**
- corticosteroid**, Refractory hypotension in preterm infants with adrenocortical insufficiency, **F122**
- cost burden**, Economic evaluation of strategies for managing crying and sleeping problems, **15**
- cost containment**, Identifying futility in a paediatric critical care setting: a prospective observational study, **265**
- cost effectiveness**, Economic evaluation of strategies for managing crying and sleeping problems, **15**
Prophylaxis for respiratory syncytial virus infection: missing the target: *letter*, **375**
- coverage**, Coverage of neonatal screening: failure of coverage or failure of information system, **476**
- cow's milk allergy**, Prevention and treatment of cow's milk allergy: *letter*, **91**
- cranial**, Neonatal cranial ultrasound interpretation: a clinical audit, **F92**
- crying**, Extent of fussing and colic type crying preceding atopic disease, **349**
Randomised controlled trial of infantile colic treated with chiropractic spinal manipulation, **138**
- crying and sleeping problems**, Economic evaluation of strategies for managing crying and sleeping problems, **15**
- cutaneous reactions**, Niflumic acid and cutaneous reactions in children, **430**
- cyclical vomiting syndrome**, The prognosis of cyclical vomiting syndrome, **55**
- cyclosporin A**, Use of cyclosporin A as a steroid sparing agent in cystic fibrosis: *letter*, **89**

- cystic fibrosis**, Bone status in cystic fibrosis, **516**
 Bronchoconstriction following nebulised colistin in cystic fibrosis, **432**
 Intestinal inflammation in cystic fibrosis: *letter*, **374**
 Methicillin resistant *Staphylococcus aureus* (MRSA) infection in cystic fibrosis, **160**
 Neonatal screening for cystic fibrosis: *screening brief*, **449**
 Nocturnal oximetry in infants with cystic fibrosis, **50**
 Normal bone mineral density in cystic fibrosis, **363**
 Survey of criteria used to diagnose allergic bronchopulmonary aspergillosis in cystic fibrosis: *letter*, **89**
 Sweat chloride and conductivity 1: *letter*, **450**
 Sweat chloride and conductivity 2: *letter*, **450**
 Use of cyclosporin A as a steroid sparing agent in cystic fibrosis: *letter*, **89**
- cytokines**, Intestinal inflammation in cystic fibrosis: an alternative hypothesis: *letter*, **374**
 Intestinal inflammation in cystic fibrosis: *letter*, **374**
- death**, Influences of ethnicity on perinatal and child mortality in the Netherlands, **222**
- death rate**, Cerebral palsy in the surviving twin associated with infant death of the co-twin, **F111**
- decision making**, Changing physician behaviour: *leading article*, **459**
 Neonatal intensive care and parental participation in decision making: *letter*, **F78**
- deprivation**, The incidence and distribution of Legg-Calvé-Perthes' disease in Liverpool, 1982-95, **351**
 Tuberculosis, deprivation, and ethnicity in Leeds, UK, 1982-1997, **109**
- dermatoglyphic pattern**, Dermatoglyphic patterns, very low birth weight, and blood pressure in adolescence, **F18**
- developing countries**, Reducing global inequalities in child health: *current topic*, **98**
- development**, Background electroencephalographic (EEG) activities of very preterm infants born at less than 27 weeks gestation: a study on the degree of continuity, **F163**
 Should infants be screened for anaemia? A prospective study investigating the relation between haemoglobin at 8, 12, and 18 months and development at 18 months, **480**
- dexamethasone**, Dexamethasone treatment and cerebral palsy: *letter*, **F140**
- diagnosis**, Determining the common medical presenting problems to an accident and emergency department, **390**
 Management of the neonate with symptomatic congenital heart disease: *leading article*, **F141**
 Severe combined immunodeficiency—molecular pathogenesis and diagnosis: *current topic*, **169**
 Wilhelm Conrad Röntgen (1845-1923), the discovery of x rays and perinatal diagnosis: *perinatal lesson*, **F138**
- diarrhoea**, Double blind, randomised controlled clinical trial of hypo-osmolar oral rehydration salt solution in dehydrating acute diarrhoea in severely malnourished (marasmic) children, **237**
 Faecal candida and diarrhoea, **328**
- diet**, Data presented do not justify pessimistic conclusions: *letter*, **92**
- dietary supplement**, Complementary and alternative medicine for children: does it work?, **6**

Drs Kerr, Barson, and Burnie respond: *letter*, **527**
- Henoch-Schönlein purpura**, Hypertension in Henoch-Schönlein purpura with minimal urinary findings, **163**
- hepatitis B**, Overcoming barriers to hepatitis B immunisation by a dedicated hepatitis B immunisation service, **114**
- hepatitis C**, Hepatitis C in pregnancy: *review*, **F201**
- histology**, Colitis in chronic granulomatous disease, **147**
- HIV**, Five year follow up of vertically HIV infected children in a randomised double blind controlled trial of immediate versus deferred zidovudine: the PENTA 1 trial, **230**
- holistic medicine**, Complementary and alternative medicine for children: does it work?, **6**
- home enteral tube feeding**, Nutritional support at home and in the community, **295**
- home parenteral nutrition**, Nutritional support at home and in the community, **295**
- homozygous**, Significance of fever in Jamaican patients with homozygous sickle cell disease, **156**
- hospital admission**, Determining the common medical presenting problems to an accident and emergency department, **390**
- hospitalisation**, Asthma admissions and weather conditions in Costa Rica, **514**
- H⁺-K⁺-ATPase**, Distal renal tubular acidosis with severe hypokalaemia, probably caused by colonic H⁺-K⁺-ATPase deficiency, **504**
- human corticotrophin releasing hormone (hCRH)**, Refractory hypotension in preterm infants with adrenocortical insufficiency, **F122**
- hydrocephalus**, Increased cerebrospinal fluid concentrations of soluble Fas (CD95/Apo-1) in hydrocephalus, **369**
Use of acetazolamide to decrease cerebrospinal fluid production in chronically ventilated patients with ventriculopleural shunts, **68**
- hyperactivity disorder**, An auditable protocol for treating attention deficit/hyperactivity disorder: *current topic*, **404**
- hyperammonaemia**, Ornithine carbamoyltransferase deficiency: *current topic*, **84**
- hyperammonaemic encephalopathy**, Hyperammonaemia in critically ill septic infants, **512**
- hyperbilirubinaemia**, Preterm infants with athetoid cerebral palsy: kernicterus?, **F136**
- hyperinsulinism**, Exercise induced hypoglycaemic hyperinsulinism, **254**
Hyperinsulinism and Beckwith-Wiedemann syndrome: *current topic*, **F67**
Practical management of hyperinsulinism in infancy: *letter*, **F218**
- hypertension**, Hypertension in Henoch-Schönlein purpura with minimal urinary findings, **163**
- hypocalcaemia**, Symptomatic rickets in adolescence, **501**
- hypocarbica**, Randomised study comparing extent of hypocarbica in preterm infants during conventional and patient triggered ventilation, **F14**
- hypoglycaemia**, Exercise induced hypoglycaemic hyperinsulinism, **254**
Hyperinsulinism and Beckwith-Wiedemann syndrome: *current topic*, **F67**
Practical management of hyperinsulinism in infancy: *letter*, **F218**
- hypokalaemia**, Distal renal tubular acidosis with severe hypokalaemia, probably caused by colonic H⁺-K⁺-ATPase deficiency, **504**
- hypomagnesaemia**, Distal renal tubular acidosis with severe hypokalaemia, probably caused by colonic H⁺-K⁺-ATPase deficiency, **504**
- hypo-osmolar**, Double blind, randomised controlled clinical trial of hypo-osmolar oral rehydration salt solution in dehydrating acute diarrhoea in severely malnourished (marasmic) children, **237**
- hypopituitarism**, Final height of short subjects of low birth weight with and without growth hormone treatment, **340**
- hypotension**, Refractory hypotension in preterm infants with adrenocortical insufficiency, **F122**
- idiopathic**, Chronic musculoskeletal and other idiopathic pain syndromes: *leading article*, **189**
- idiopathic thrombocytopenic purpura**, Idiopathic thrombocytopenic purpura and MMR vaccine, **227**
- imaging**, Central nervous system imaging and congenital melanocytic naevi, **152**
Imaging the less seriously head injured child: *letter*, **281**
- immunisation**, Overcoming barriers to hepatitis B immunisation by a dedicated hepatitis B immunisation service, **114**
Response to influenza immunisation during treatment for cancer, **496**
- immunodeficiency**, Bone marrow transplantation for CD40 ligand deficiency: a single centre experience, **508**
Increased mortality in cartilage-hair hypoplasia, **65**
Severe combined immunodeficiency—molecular pathogenesis and diagnosis: *current topic*, **169**
- inborn error**, Detection of inborn errors of metabolism in the newborn: *review*, **F205**

- incidence**, A prospective evaluation of community acquired gastroenteritis in paediatric practices: impact and disease burden of rotavirus infection, **F393**
Systematic review of the occurrence of infantile colic in the community, **F98**
- indomethacin**, Renal follow up of premature infants with and without perinatal indomethacin exposure, **F28**
- infant mortality**, Reducing global inequalities in child health: *current topic*, **98**
- infant sepsis**, Hyperammonaemia in critically ill septic infants, **F512**
- infantile colic**, Extent of fussing and colic type crying preceding atopic disease, **349**
Randomised controlled trial of infantile colic treated with chiropractic spinal manipulation, **138**
Systematic review of the occurrence of infantile colic in the community, **F98**
- infection**, Detecting outbreaks of *E coli* O157 infection in nurseries: *letter*, **90**
Hepatitis C in pregnancy: *review*, **F201**
Rationing of antibiotic use in neonatal units: *letter*, **F218**
- infertility**, Fertility preservation for children treated for cancer (1): scientific advances and research dilemmas: *personal practice*, **355**
Fertility preservation for children treated for cancer (2): ethics of consent for gamete storage and experimentation: *personal practice*, **360**
- inflammatory markers**, Oral steroids and inflammatory markers in asthma: *letter*, **187**
Oral steroids and inflammatory markers in asthma: *letter*, **452**
- influenza**, Response to influenza immunisation during treatment for cancer, **496**
- information systems**, Coverage of neonatal screening: failure of coverage or failure of information system, **476**

- quality of care**, Changing physician behaviour: *leading article*, **459**
- quality of life**, A review of measures of quality of life for children with chronic illness, **205**
Randomised controlled trial of the effect of ventilation tubes (grommets) on quality of life at age 1–2 years, **45**
- radiography**, Positioning long lines: contrast versus plain radiography, **F129**
Wilhelm Conrad Röntgen (1845–1923), the discovery of x rays and perinatal diagnosis: *perinatal lesson*, **F138**
- radionuclide imaging**, Randomised controlled trial of three day versus 10 day intravenous antibiotics in acute pyelonephritis: effect on renal scarring, **241**
- radiotherapy**, Low grade astrocytomas in the West of Scotland 1987–96: treatment, outcome, and cognitive functioning, **61**
- randomised controlled trial**, Five year follow up of vertically HIV infected children in a randomised double blind controlled trial of immediate versus deferred zidovudine: the PENTA 1 trial, **230**

- Randomised controlled study of oral erythromycin for treatment of gastrointestinal dysmotility in preterm infants, **F177**
- Randomised controlled trial of prophylactic etamsylate: follow up at 2 years of age, **F183**
- Randomised controlled trial of the effect of ventilation tubes (grommets) on quality of life at age 1-2 years, **45**
- recombinant human granulocyte colony stimulating factor**, A trial of recombinant human granulocyte colony stimulating factor for the treatment of very low birthweight infants with presumed sepsis and neutropenia, **F172**
- red blood cell**, Red blood cell transfusions in very and extremely low birthweight infants under restrictive transfusion guidelines: is exogenous erythropoietin necessary?, **F96**
- religion**, Muslim birth customs: *leading article*, **F6**
- renal follow up**, Renal follow up of premature infants with and without perinatal indomethacin exposure, **F28**
- renal stone**, Evaluation of urinary tract calculi in children, **320**
- renal tubular acidosis**, Distal renal tubular acidosis with severe hypokalaemia, probably caused by colonic $H^+K^+-ATPase$ deficiency, **504**
- reporting**, Neonatal cranial ultrasound interpretation: a clinical audit, **F92**
- research**, Fertility preservation for children treated for cancer (1): scientific advances and research dilemmas: *personal practice*, **355**
- residential care**, Health of teenagers in residential care: comparison of data held by care staff with data in community child health records, **10**
- resource consumption**, Identifying futility in a paediatric critical care setting: a prospective observational study, **265**
- respiratory distress**, An unusual cause of respiratory distress: unilateral pulmonary agenesis, **F197**
- respiratory distress syndrome**, Respiratory distress syndrome and birth order in premature twins, **F117**
- respiratory function**, Birth weight <1501 g and respiratory health at age 14, **40**
- respiratory sounds**, Survey of respiratory sounds in infants, **35**
- respiratory syncytial virus**, Prophylaxis for respiratory syncytial virus infection: missing the target: *letter*, **375**
- resuscitation**, Changes in paediatric resuscitation knowledge among doctors, **412**
- Management of the neonate with symptomatic congenital heart disease: *leading article*, **F141**
- retinal haemorrhage**, Retinal haemorrhage and fatal stroke in an infant with fibromuscular dysplasia, **263**
- retinol**, Randomised controlled trial of oral vitamin A supplementation in preterm infants to prevent chronic lung disease, **F9**
- retinopathy of prematurity**, Blood transfusion increases radical promoting non-transferrin bound iron in preterm infants, **F188**
- Pulse oximetry, severe retinopathy, and outcome at one year in babies of less than 28 weeks gestation, **F106**
- review**, Complementary and alternative medicine for children: does it work?, **6**
- Nutritional support at home and in the community, **295**
- Rh incompatibility**, Maternal anti-D prophylaxis during pregnancy does not cause neonatal haemolysis, **F60**
- rhabdomyosarcoma**, Growth hormone and segmental growth in survivors of head and neck embryonal rhabdomyosarcoma, **436**
- rickets**, Symptomatic rickets in adolescence, **501**
- rotavirus**, A prospective evaluation of community acquired gastroenteritis in paediatric practices: impact and disease burden of rotavirus infection, **393**
- RSV prophylaxis**, Prophylaxis for respiratory syncytial virus infection: missing the target: *letter*, **375**
- salbutamol**, Randomised controlled study of clinical efficacy of spacer therapy in asthma with regard to electrostatic charge, **178**
- screening**, Community based universal neonatal hearing screening by health visitors using otoacoustic emissions, **F157**
- Coverage of neonatal screening: failure of coverage or failure of information system, **476**
- Hepatitis C in pregnancy: *review*, **F201**
- Screening and surveillance for autism and pervasive developmental disorders: *current topic*, **468**
- Should infants be screened for anaemia? A prospective study investigating the relation between haemoglobin at 8, 12, and 18 months and development at 18 months, **480**
- seizures**, Electroencephalographic and clinical features of cerebral malaria, **247**
- selection bias**, Evidence of selection bias in preterm survival studies: a systematic review, **F79**
- selective serotonin reuptake inhibitors (SSRIs)**, Withdrawal reactions of a premature neonate after maternal use of paroxetine: *letter*, **F77**
- sepsis**, A trial of recombinant human granulocyte colony stimulating factor for the treatment of very low birthweight infants with presumed sepsis and neutropenia, **F172**
- serogroup W135 meningococcal infection**, Meningococcal disease due to W135: fresh public health concerns: *letter*, **90**
- serotonin reuptake inhibitors**, Neonatal paroxetine withdrawal syndrome, **F134**
- severity**, A prospective evaluation of community acquired gastroenteritis in paediatric practices: impact and disease burden of rotavirus infection, **393**
- sFas ligand**, Increased cerebrospinal fluid concentrations of soluble Fas (CD95/Apo-1) in hydrocephalus, **369**
- short stature**, Short stature in Noonan syndrome: response to growth hormone therapy, **440**
- sickle cell disease**, Significance of fever in Jamaican patients with homozygous sickle cell disease, **156**
- skin puncture**, An automatic incision device for obtaining blood samples from the heels of preterm infants causes less damage than a conventional manual lancet, **F53**
- sleep**, Nocturnal oximetry in infants with cystic fibrosis, **50**
- sleep disordered breathing**, Asynchronous breathing during sleep, **174**
- sleep related upper airway obstruction**, Are sleep studies worth doing?: *letter*, **92**
- sleep study**, Are sleep studies worth doing?: *letter*, **92**
- smacking**, We need the full picture on both smacking and vaccinations: *letter*, **452**
- small for date**, Final height of short subjects of low birth weight with and without growth hormone treatment, **340**
- smoking**, Study of maternal influences on fetal iron status at term using cord blood transferrin receptors, **F40**
- Work, family socioeconomic status, and growth among working boys in Jordan, **311**
- snoring**, Are sleep studies worth doing?: *letter*, **92**
- social deprivation**, Social deprivation and the causes of stillbirth and infant mortality, **307**
- social environment**, Influences of ethnicity on perinatal and child mortality in the Netherlands, **222**
- Social class difference in catch up growth in a national British cohort, **218**
- socioeconomic status**, Work, family socioeconomic status, and growth among working boys in Jordan, **311**
- sodium**, Sweat chloride and conductivity 1: *letter*, **450**
- Sweat chloride and conductivity 2: *letter*, **450**
- somatotropin**, Final height of short subjects of low birth weight with and without growth hormone treatment, **340**
- spacer**, Randomised controlled study of clinical efficacy of spacer therapy in asthma with regard to electrostatic charge, **178**
- Spacers and holding chambers: Not the last word, we hope: *letter*, **92**
- Spacers and holding chambers: Not the last word, we hope—a reply: *letter*, **281**
- Successful implementation of spacer treatment guideline for acute asthma, **142**
- spinal bracing**, Lung function measurements in young children with spinal muscle atrophy: a cross sectional survey on the effect of position and bracing, **521**
- spinal manipulation**, Randomised controlled trial of infantile colic treated with chiropractic spinal manipulation, **138**
- spinal muscular atrophy**, Lung function measurements in young children with spinal muscle atrophy: a cross sectional survey on the effect of position and bracing, **521**
- spirometry**, Bronchodilator responsiveness testing in young children: *letter*, **531**
- splenomegaly**, Isolated splenomegaly as the presenting feature of Niemann-Pick disease type C, **427**
- stable isotopes**, Uses of stable isotopes in clinical diagnosis and research in the paediatric population, **444**
- steroid**, Use of cyclosporin A as a steroid sparing agent in cystic fibrosis: *letter*, **89**
- stillbirth**, Mediastinal teratoma presenting as apparent fresh stillbirth, **F65**
- Social deprivation and the causes of stillbirth and infant mortality, **307**
- stroke**, Retinal haemorrhage and fatal stroke in an infant with fibromuscular dysplasia, **263**
- sudden infant death syndrome**, Ammonia—not the culprit: *letter*, **525**
- Association between SIDS and *H pylori* infection: *letter*, **525**
- Association is not the same as causation: *letter*, **526**
- Changes in the epidemiology of sudden infant death syndrome in Sweden 1973-1996, **24**
- Control your controls and conclusions: *letter*, **525**
- Controls not matched: *letter*, **529**
- Death kisses for newborns?: *letter*, **526**
- Drs Kerr, Barson, and Burnie respond: *letter*, **527**
- Dwelling crowding as a pertinent factor: *letter*, **526**
- Influences of ethnicity on perinatal and child mortality in the Netherlands, **222**
- H pylori* DNA may not imply infection: *letter*, **526**
- More on SIDS and *H pylori*—Authors' response: *letter*, **530**
- No association in a Chinese population: *letter*, **529**
- Parental compliance with home cardiorespiratory monitoring, **270**
- The need for further evidence for the proposed role of *Helicobacter pylori* in SIDS: *letter*, **528**
- sun**, Symptomatic rickets in adolescence, **501**
- surgery**, Low grade astrocytomas in the West of Scotland 1987-96: treatment, outcome, and cognitive functioning, **61**

- surveillance**, A novel scheme for the reporting of adverse drug reactions, 337
Is regional paediatric surveillance useful? Experience in Wales, 486
Screening and surveillance for autism and pervasive developmental disorders: current topic, 468
- survival**, Evidence of selection bias in preterm survival studies: a systematic review, F79
Improved survival and neurodevelopmental outcome after prolonged ventilation in preterm neonates who have received antenatal steroids and surfactant, F194
- susceptibility**, Response to influenza immunisation during treatment for cancer, 496
- sweat test**, Sweat chloride and conductivity 1: *letter*, 450
Sweat chloride and conductivity 2: *letter*, 450
- Sweden**, Changes in the epidemiology of sudden infant death syndrome in Sweden 1973–1996, 24
- syndromic obesity**, Pancreatic dysfunction in severe obesity, 261
- systematic review**, Growth monitoring: *letter*, 90
- term**, Effects of cisapride on QTc interval in term neonates, F44
- thrombocytopenia**, An approach to investigation of easy bruising, 488
- thrombocytosis**, Neonatal thrombocytosis resulting from the maternal use of non-narcotic antischizophrenic drugs during pregnancy, F198
- thrombopoietin**, Neonatal thrombocytosis resulting from the maternal use of non-narcotic antischizophrenic drugs during pregnancy, F198
- tidal breathing**, Lung function measurements in young children with spinal muscle atrophy: a cross sectional survey on the effect of position and bracing, 521
- tracer**, Uses of stable isotopes in clinical diagnosis and research in the paediatric population, 444
- training**, Mental health and foster carer training, 302
Prehospital emergency care for children: *current topic*, 103
- transferrin receptors**, Study of maternal influences on fetal iron status at term using cord blood transferrin receptors, F40
- transfusion**, Red blood cell transfusions in very and extremely low birthweight infants under restrictive transfusion guidelines: is exogenous erythropoietin necessary?, F96
- traumatic brain injury**, A practical outcome scale for paediatric head injury, 120
- treatment**, Colitis in chronic granulomatous disease, 147
Investigation and treatment of facial paralysis, 286
- treatment withdrawal**, Follow up care of bereaved parents after treatment withdrawal from newborns, F125
- tuberculosis**, Tuberculosis, deprivation, and ethnicity in Leeds, UK, 1982–1997, 109
- Turner syndrome**, A multicentre trial of recombinant growth hormone and low dose oestrogen in Turner syndrome: near final height analysis, 76
Growth hormone in Turner syndrome: *letter*, 531
- twins**, Cerebral palsy in the surviving twin associated with infant death of the co-twin, F111
Respiratory distress syndrome and birth order in premature twins, F117
- ultrasound**, Ultrasound diagnosis and neurodevelopmental outcome of localised and extensive cystic periventricular leucomalacia, F151
- ultrasound scans**, Neonatal cranial ultrasound interpretation: a clinical audit, F92
- urea cycle**, Ornithine carbamoyltransferase deficiency: *current topic*, 84
- urea splitting organisms**, Hyperammonaemia in critically ill septic infants, 512
- urinary retention**, Acute urinary retention: an unusual presentation of acute appendicitis in a 3 year old boy, 269
- urinary tract**, Evaluation of urinary tract calculi in children, 320
- urinary tract infection**, An audit of RCP guidelines on DMSA scanning after urinary tract infection, 324
Dipstrip examination for urinary tract infection: *letter*, 451
Randomised controlled trial of three day versus 10 day intravenous antibiotics in acute pyelonephritis: effect on renal scarring, 241
- uroolithiasis**, Evaluation of urinary tract calculi in children, 320
- vaccination**, We need the full picture on both smacking and vaccinations: *letter*, 452
- vaccine**, Idiopathic thrombocytopenic purpura and MMR vaccine, 227
Meningococcal group C conjugate vaccines: *leading article*, 383
- vancomycin**, Rationing of antibiotic use in neonatal units: *letter*, F218
- vascular encephalopathy**, Fetal brain disruption sequence in a newborn infant with a history of cordocentesis at 21 weeks gestation, F63
- ventilation tubes**, Randomised controlled trial of the effect of ventilation tubes (grommets) on quality of life at age 1–2 years, 45
- ventricular dilatation**, Increased cerebrospinal fluid concentrations of soluble Fas (CD95/Apo-1) in hydrocephalus, 369
- ventriculomegaly**, Ultrasound diagnosis and neurodevelopmental outcome of localised and extensive cystic periventricular leucomalacia, F151
- ventriculopleural shunts**, Use of acetazolamide to decrease cerebrospinal fluid production in chronically ventilated patients with ventriculopleural shunts, 68
- very low birthweight**, A trial of recombinant human granulocyte colony stimulating factor for the treatment of very low birthweight infants with presumed sepsis and neutropenia, F172
Breast milk feeding and cognitive ability at 7–8 years, F23
Hepatic iron storage in very low birthweight infants after multiple blood transfusions, F101
Randomised controlled study of oral erythromycin for treatment of gastrointestinal dysmotility in preterm infants, F177
- video**, Parents' interpretations of children's respiratory symptoms on video, 31
- violence**, Violence against trainee paediatricians, 106
- viral meningitis**, Neonatal meningitis in England and Wales: 10 years on, F85
- viral transmission**, Breast feeding and the risks of viral transmission: *leading article*, 381
- visceral leishmaniasis**, Visceral leishmaniasis: also beware of these deceptive microbes in non-endemic countries!: *letter*, 373
- Visilab video system**, Are sleep studies worth doing?: *letter*, 92
- vitamin A**, Randomised controlled trial of oral vitamin A supplementation in preterm infants to prevent chronic lung disease, F9
- vitamin K deficiency**, Prophylaxis of neonatal vitamin K deficiency bleeding in premature infants: *letter*, F218
- volumetric trabecular bone mineral density**, Bone density in asthmatic children treated with inhaled corticosteroids, 183
- Wales**, Is regional paediatric surveillance useful? Experience in Wales, 486
- weaning**, Muslim birth customs: *leading article*, F6
- weather**, Asthma admissions and weather conditions in Costa Rica, 514
- weight for height measurement**, Reliability of percentage ideal weight for height: *letter*, 187
- whoop**, Parents' interpretations of children's respiratory symptoms on video, 31
Survey of respiratory sounds in infants, 35
- white blood cells**, Chemotherapy and marrow transplantation for congenital leukaemia, F47
- whole gut lavage**, Intestinal inflammation in cystic fibrosis: an alternative hypothesis: *letter*, 374
Intestinal inflammation in cystic fibrosis: *letter*, 374
- withdrawal**, Neonatal paroxetine withdrawal syndrome, F134
Withdrawal reactions of a premature neonate after maternal use of paroxetine: *letter*, F77
- work**, Work, family socioeconomic status, and growth among working boys in Jordan, 311
- x rays**, Wilhelm Conrad Röntgen (1845–1923), the discovery of x rays and perinatal diagnosis: *perinatal lesson*, F138
- yeasts**, Faecal candida and diarrhoea, 328
- Yellow Card Scheme**, A novel scheme for the reporting of adverse drug reactions, 337
- zidovudine**, Five year follow up of vertically HIV infected children in a randomised double blind controlled trial of immediate versus deferred zidovudine: the PENTA 1 trial, 230
